## *European Year of Cultural Heritage 2018*

The main idea of this project is to promote the European cultural heritage among  
our little students

During our project we want to:

- 📖 improve literacy competences and creativity skills for students
- 📖 develop the spirit of awareness about similarities and differences of 5  
European cultures and traditions
- 📖 improve students' desire of expressing their minds and emotions
- 📖 increase the importance of including storytelling methods in different fields  
of the school curricula

- Each of the group chooses a legend, myth or fairytale
- Pupils listen to the story
- Then they create pictures to the story and text in their mother tongue and in English
- We all create an e-book with all the stories from five countries adding pictures, text and voice in *StoryJumper*
